# CD45R antibody [RA3-6B2]

# Cat. No. GTX00486

Host	Rat	References (8)
Clonality	Monoclonal	<mark>Package</mark> 100 μg
lsotype	lgG2a	
Applications	WB, ICC/IF, IHC-P, IHC-Fr, FCM, IP, Depletion	
Reactivity	Human, Mouse, Cat	

## PRODUCT

The RA3-6B2 antibody reacts with the human and mouse CD45 isoform known as CD45R, or B220, a protein tyrosine phosphatase of  $\geq$  220 kDa. CD45 is one of the most abundant hematopoietic markers, and is expressed on all leukocytes (the Leukocyte Common Antigen, LCA). Various isoforms are generated and expressed in cell-specific patterns, all critical for leukocyte function. In mouse, the CD45R/B220 isoform is predominantly found on B cells, at varying levels on all stages from pro-B cells to activated B cells, and may also be detected on certain T cell and NK cell subsets. It is of note that B220 is not similarly expressed on human B cells, where it appears to be differentiation-specific and therefore expressed on only some B cell subsets. Other forms of CD45 with restricted cellular expression include CD45RA, CD45RB, CD45RO and several others.

#### Applications

Summary

### **Application Note**

\*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution	Recommended dilution	
WB	Assay dependent	
ICC/IF	Assay dependent	
IHC-P	Assay dependent	
IHC-Fr	Assay dependent	
FCM	Assay dependent	
IP	Assay dependent	
Depletion	Assay dependent	
Not tested in other applications.		
Calculated MW	145 kDa. ( <u>Note</u> )	
Product Note	This antibody recognizes an epitope on CD45R, which is expressed at all developmental stages of B cells, including activated B cells, but also on subsets of NK and T cells. T cells detected by this antibody are supposed to be in activated state.	
Properties		

Form

Liquid

Date 2025 / 06 / 25 Page 1 of 2

Buffer	10mM NaH <sub>2</sub> PO <sub>4</sub> , 150mM NaCl	
Preservative	0.09% Sodium azide	
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. Store at 4°C.	
Concentration	0.5 mg/ml (Please refer to the vial label for the specific concentration.)	
Immunogen	Abelson murine leukemia virus-induced pre-B tumor cells	
Purification	Purified by affinity chromatography From tissue culture supernatant	
Conjugation	Unconjugated	
Note	For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.	
11016	Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
