# Fas Ligand antibody [NOK-1] (Biotin)

## Cat. No. GTX01476-02

Host	Mouse	References ( Package 100 µg
Clonality	Monoclonal	
lsotype	lgG1	
Applications	FCM	
Reactivity	Human	

 PRODUCT

 The NOK-1 antibody reacts with human CD178 (Fas ligand) in both membrane bound and soluble forms. Fas ligand is a 40 kDa transmembrane glycoprotein, a member of the TNF-α family, and is expressed by activated T and NK cells, neutrophils, and monocytes. Interactions between CD178 (Fas ligand) and CD95 (Fas) induce a program of apoptosis and play a key role in immune regulation and homeostasis. The extracellular domain of human CD178 can be cleaved from the surface by matrix metalloproteinases (MMPs) resulting in a 26 kDa soluble protein.

#### Applications

#### **Application Note**

\*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution	Recommended dilution
FCM	Assay dependent

Not tested in other applications.

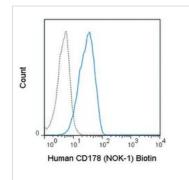

Properties			
Form	Liquid		
Buffer	10mM NaH <sub>2</sub> PO <sub>4</sub> , 150mM NaCl, 0.1% Gelatin		
Preservative	0.09% Sodium azide		
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. Store at 4°C. DO NOT FREEZE. Protect from light.		
Concentration	0.5 mg/ml (Please refer to the vial label for the specific concentration.)		
Purification	Purified by affinity chromatography From tissue culture supernatant		
Conjugation	Biotin		
Note	For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.		
	Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.

#### DATA IMAGES

### GTX01476-02 FCM Image

FACS analysis of human CD178 (Fas ligand) transfected cells using GTX01476-02 Fas Ligand antibody [NOK-1] (Biotin).

Solid lone : primary antibody

Dashed line : isotype control

antibody amount : 0.25 µg (5 µl)
