

Myosin Heavy Chain antibody [WB-MHCn]

Cat. No. GTX01913

Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Applications	IHC-Fr
Reactivity	Human, Rabbit

Package
500 µl

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution	Recommended dilution
IHC-Fr	1:5-1:20

Note : Unfixed tissue

Not tested in other applications.

Product Note

This antibody recognises a myosin heavy chain present during the neonatal period in rabbit limb muscle. The temporal appearance of an equivalent epitope may differ in different species and consequently it may not be correct to label the epitope as "neonatal" in some circumstances.

Properties

Form	Liquid
Buffer	Tissue culture supernatant
Preservative	0.09% Sodium azide
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
Immunogen	Myosin extracted from the hind limb muscle of a 3 day old rabbit, denatured with sodium dodecyl sulphate.
Purification	Unpurified
Conjugation	Unconjugated

Note

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
