

## Vimentin antibody [SRL33]

**Cat. No. GTX01972**

|                     |            |
|---------------------|------------|
| <b>Host</b>         | Mouse      |
| <b>Clonality</b>    | Monoclonal |
| <b>Isotype</b>      | IgG2a      |
| <b>Applications</b> | IHC-P      |
| <b>Reactivity</b>   | Human      |

**Package**  
500 µl

## Applications

**Application Note**

\*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| IHC-P              | 1:400                |

**Note : The recommended fixative is 10% neutral-buffered formalin for paraffin-embedded tissue sections.**

Not tested in other applications.

## Properties

|                     |                                                                                                              |
|---------------------|--------------------------------------------------------------------------------------------------------------|
| <b>Form</b>         | Liquid                                                                                                       |
| <b>Buffer</b>       | Tissue culture supernatant                                                                                   |
| <b>Preservative</b> | 0.09% Sodium azide                                                                                           |
| <b>Storage</b>      | Store as concentrated solution. Centrifuge briefly prior to opening vial. Store at 4°C. DO NOT FREEZE.       |
| <b>Immunogen</b>    | Prokaryotic recombinant protein corresponding to a portion of the C-terminus of the human vimentin molecule. |
| <b>Purification</b> | Unpurified                                                                                                   |
| <b>Conjugation</b>  | Unconjugated                                                                                                 |

**Note**

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
