

Tween 20

Cat. No. GTX03634

Package 125 ml

DD	

Summary

Tween 20 is a detergent (surfactant) commonly added to buffers and reagents for immunohistochemistry. Its purpose is to decrease background staining and enhance reagent spreading in automated and manual procedures. It is suggested to use the product at concentrations between 0.05% and 0.1% in buffers and reagents.

Properties		
Form	Liquid	
Storage	Store at room temperature.	
Conjugation	Unconjugated	
Note	For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.	
	Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
