

# Goat Anti-Mouse kappa light chain antibody, F(ab')<sub>2</sub> fragment, pre-adsorbed (Low endotoxin, azide free)

**Cat. No. GTX04202-00**

|                     |                                            |
|---------------------|--------------------------------------------|
| <b>Host</b>         | Goat                                       |
| <b>Clonality</b>    | Polyclonal                                 |
| <b>Isotype</b>      | IgG F(ab') <sub>2</sub>                    |
| <b>Applications</b> | WB, IHC-P, FCM, ELISA, Activation, ELISPOT |
| <b>Reactivity</b>   | Mouse                                      |

Package

500 µg

## Applications

### Application Note

\*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| WB                 | Assay dependent      |
| IHC-P              | Assay dependent      |
| FCM                | Assay dependent      |
| ELISA              | Assay dependent      |
| Activation         | Assay dependent      |
| ELISPOT            | Assay dependent      |

Not tested in other applications.

### Product Note

Pre-adsorbed with Mouse λ light chains. May react with κ light chains from other species.

## Properties

|                      |                                                                                         |
|----------------------|-----------------------------------------------------------------------------------------|
| <b>Form</b>          | Liquid                                                                                  |
| <b>Buffer</b>        | PBS                                                                                     |
| <b>Preservative</b>  | No preservatives                                                                        |
| <b>Storage</b>       | Store as concentrated solution. Centrifuge briefly prior to opening vial. Store at 4°C. |
| <b>Concentration</b> | 0.5 mg/ml (Please refer to the vial label for the specific concentration.)              |
| <b>Immunogen</b>     | Pepsin digest of Goat Anti-Mouse Kappa.                                                 |
| <b>Purification</b>  | Purified IgG                                                                            |
| <b>Endotoxin</b>     | < 0.05 EU/µg (determined by the LAL assay)                                              |
| <b>Conjugation</b>   | Unconjugated                                                                            |
