

CD44 antibody

Cat. No. GTX102111

| Host | Rabbit |
|--------------|------------------------------------|
| Clonality | Polyclonal |
| Isotype | IgG |
| Applications | WB, ICC/IF, IHC-P, IHC-Fr, IP, LCI |
| Reactivity | Human, Rat, Rabbit |

PRODUCT

Summary

CD44 is an 82kDa multifunctional transmembrane glycoprotein involved in cell migration, proliferation, differentiation, and signaling pathways that mediate cell survival. It is involved in many malignancies as well as being recognized as a cancer stem cell marker. Importantly, it is expressed in leukocytes and is a marker of leukemia-initiating cells, being found to be critical in the pathogenesis of T cell acute lymphoblastic leukemia.

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| WB | 1:1000-1:20000 |
| ICC/IF | 1:100-1:1000 |
| IHC-P | 1:100-1:1000 |
| IHC-Fr | Assay dependent |
| IP | Assay dependent |
| LCI | Assay dependent |

Not tested in other applications.

Product Note IP/MS validation is based on published data (PMID: 30377381).

| Properties | |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Form | Liquid |
| Buffer | PBS, 20% Glycerol |
| Preservative | 0.025% ProClin 300 |
| Storage | Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles. |
| Concentration | 0.5 mg/ml (Please refer to the vial label for the specific concentration.) |

Date 2025 / 12 / 06 Page 1 of 2

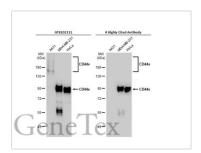

| Immunogen | Recombinant protein encompassing a sequence within the Extracellular domain of human CD44. The exact sequence is proprietary. |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purification | Purified by antigen-affinity chromatography. |
| Conjugation | Unconjugated |
| Note | For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption. |
| | Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product. |

DATA IMAGES

GTX102111 WB Image

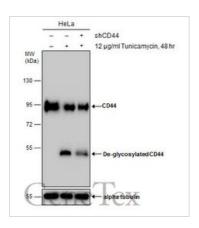

Non-transfected (–) and transfected (+) Wild-type (WT) and G CD44 knockout (KO) HeLa cell extracts (30 μ g) were separated by 7.5% SDS-PAGE, and the membrane was blotted with CD44 antibody (GTX102111) diluted at 1:7000. The HRP-conjugated anti-rabbit IgG antibody (GTX213110-01) was used to detect the primary antibody.

GTX102111 WB Image

Various whole cell extracts (30 μ g) were separated by 7.5% SDS-PAGE, and the membranes were blotted with CD44 antibody (GTX102111) diluted at 1:5000 and competitor's antibody (# Highly Cited Antibody) diluted at 1:5000. The HRP-conjugated anti-rabbit IgG antibody (GTX213110-01) was used to detect the primary antibody.

GTX102111 WB Image

Untreated (–) and treated (+) HeLa whole cell extracts (30 µg) were separated by 7.5% SDS-PAGE, and the membrane was blotted with CD44 antibody (GTX102111) diluted at 1:10000. The HRP-conjugated antirabbit IgG antibody (GTX213110-01) was used to detect the primary antibody.

The observed M.W. is different from the predicted size. It is possibly due to post-translational modifications. Reference: <u>PMID: 10050880</u>
