

gamma Tubulin antibody (Cy3)

Cat. No. GTX11319

| Host | Rabbit |
|--------------|----------------|
| Clonality | Polyclonal |
| Isotype | IgG |
| Applications | ICC/IF |
| Reactivity | Human, Chicken |

Package 100 μΙ

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| ICC/IF | 1:200 |

Not tested in other applications.

| Properties | |
|---------------|--|
| Form | Liquid |
| Buffer | PBS, 1% BSA |
| Preservative | 15mM Sodium azide |
| Storage | Store as concentrated solution. Centrifuge briefly prior to opening vial. Store at 4°C. DO NOT FREEZE. Protect from light. |
| Concentration | Batch dependent (Please refer to the vial label for the specific concentration.) |
| Immunogen | synthetic peptide corresponding to the N-terminal region of human γ -tubulin (amino acids 38-53, with C-terminally added lysine) conjugated to KLH. This sequence is specific for γ -tubulin and not found in other members of the tubulin family such as α - β -, δ and ϵ - tubulins. This sequence is identical in mouse and rat γ -tubulin and highly conserved among species (Drosophila, Aspergillus, and yeast γ -tubulin). |
| Purification | Purified by affinity chromatography |
| Conjugation | Cyanine3 (Cy3) Wavelength |
| Note | For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption. |
| | Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product. |
