

# CXCL8 / IL8 antibody [I8-S2]

# Cat. No. GTX18649

Host	Mouse
Clonality	Monoclonal
Isotype	lgG2b
Applications	WB, ELISA, Neutralizing/Inhibition
Reactivity	Human

Package 250 μg

## Applications

#### **Application Note**

For ELISA: Use at an assay dependent dilution. Can be used as a capture antibody in an ELISA pair with GTX18656 (detection). For Neut: Use at an assay dependent dilution. For WB: Use at a concentration of  $0.02 - 0.1 \,\mu g/ml$ . Predicted molecular weight: 11 kDa. Optimal dilutions/concentrations should be determined by the end user.

Calculated MW	11 kDa. ( <u>Note</u> )
Product Note	This antibody recognises both recombinant and native IL8. This antibody does not cross react with Monocyte Chemotactic Activating Factor (MCAF) or RANTES (Regulated on Activation, Normal T-cell Expressed, and Secreted).

Properties	
Form	Liquid
Buffer	PBS
Preservative	No preservatives
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
Concentration	1 mg/ml (Please refer to the vial label for the specific concentration.)
Immunogen	Purified recombinant IL8 (Human).
Purification	Protein G purified
Conjugation	Unconjugated
Note	For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.
	Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.

## DATA IMAGES

#### GTX18649 WB Image

Western blot analysis of Human IL-8 using clone I8-S2. The antibody, when used at concentration of 0.02-0.1 ug/mL antibody will allow visualization of 100 ng/lane of recombinant human IL-8.
