

GP IIb/IIIa antibody [237]

Cat. No. GTX20662

Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Applications	WB
Reactivity	Human

Package
100 µg

Applications

Application Note

This antibody, used at a concentration of 10-20µg/mL will allow visualization of NP 40 solubized normal human platelets

Product Note

Under reducing conditions, this antibody will bind against the human platelet membrane glycoproteins IIb and/or IIIa, which have molecular weights of ~130,000 (IIb) and 115,000 (IIIa).

Properties

Form	Liquid
Buffer	PBS
Preservative	No preservative
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
Concentration	1 mg/ml (Please refer to the vial label for the specific concentration.)
Immunogen	109 human platelets suspension. The supernatant fluid from positive clones was screened by ELISA coated with washed platelets
Purification	Protein G purified
Conjugation	Unconjugated

Note

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
