

Human Brain: Hippocampus (Normal) tissue slides

Cat. No. GTX24305

Applications	IHC-P, ISH
Species	Human

Package
5 slide

PRODUCT

Summary GeneTex provides single human diseased tissue slide with 5 μm of tissues mounted. These tissue sections are designed for rapidly identifying cellular localization of genes or proteins in human samples.

Tissue type Normal

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution	Recommended dilution
IHC-P	Assay dependent
ISH	Assay dependent

Not tested in other applications.

Properties

Storage Store at room temperature.

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

Note Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
