

## Primary Antibody Diluent

## Cat. No. GTX28208

## Applications

IHC

References ( 11 )

Package

250 ml

## PRODUCT

## Summary

Primary antibody diluent (with background reducing component)

## Applications

## Application Note

Preparation of Reagent: Bring the diluent to room temperature and mix thoroughly before use. No further preparation is required. Procedure: 1) Pour the diluent in a clean glass container. 2) Add concentrated primary antibody directly in the diluent and mix thoroughly. 3) Diluted antibody is ready to use now and should be stored at 2-8 1/4 C for further use.

## Properties

## Form

Liquid

## Storage

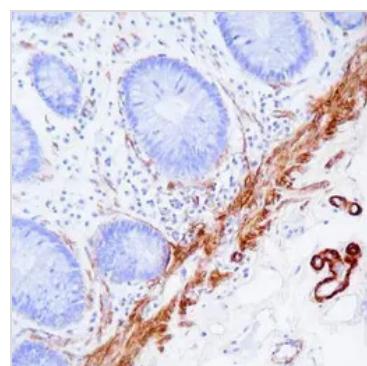

Keep as concentrated solution, aliquot and store at 4°C.

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

## Note

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
