

BMF peptide

Cat. No. GTX29656

Applications	Neutralizing/Inhibition
Species	Human

Package
50 µg

Applications

Application Note

The peptide is used for blocking the activity of anti-Bmf (N terminal) antibody (GTX29655). Incubating the peptide with equal volume of antibody for 30 min at 37°C usually completely blocks the activity of anti-Bmf (N terminal) in Western blotting.

Properties

Form	Liquid
Buffer	PBS, 0.1% BSA
Preservative	0.02% Sodium azide
Storage	Store the peptide at -20°C, stable for one year.
Concentration	0.20 mg/ml (Please refer to the vial label for the specific concentration.)
Conjugation	Unconjugated

Note

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.
