

Fluoroshield™ with PI

Cat. No. GTX30921

Applications ICC/IF, IHC

Package
20 ml

PRODUCT

Summary Fluoroshield™ with propidium iodide (PI)

Applications

Application Note

Apply 3-4 drops of mounting medium directly on top of the specimen and spread out evenly by tilting back and forth or spread evenly with a 0.2 ml plastic pipette tip making sure the tissue is not touched. Excess medium can be removed by touching the edges of the slide on a paper towel. Let stand at room temperature for about 5 minutes. Apply cover slip, carefully avoiding air bubbles.
