

## EDTA buffer, 10X pH 8.0

## Cat. No. GTX30937

Applications	IHC-P	Package	100 ml
--------------	-------	---------	--------

## PRODUCT

Summary	EDTA Antigen Retrieval Buffer, 10X pH 8.0
---------	---

## Applications

## Application Note

Deparaffinize FFPE tissue section is carried out as outlined in your protocol. Hydrate tissue with PBS. The tissue slides are immersed in this 1X solution and heated for 10-20 minutes at 100°C; OR in pressure cooker for 3-5 minutes followed by cooling at room temperature for about 20 minutes. The tissue sections are ready for further IHC protocol.

## Properties

Form	Liquid
Storage	Store at 2-8°C, DO NOT FREEZE.
For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.	
Note	Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
