

# Trident 10X PBST

**Cat. No. GTX30977**

**Application** WB, ELISA

**Package**  
100 ml

## PRODUCT

**Summary** Phosphate-Buffered Saline with Tween Solution (10X)

## APPLICATION

### Application Note

Dilute this 10X buffer 10 times (e.g. 90 ml of deionized or distilled water + 10 ml of this buffer), mix well, and store 1 X buffer solution at room temperature or 2-8°C for several weeks. Wash membrane or ELISA plates for 10 minutes each for three times. For 10x10 cm membrane use at least 50 ml buffer with shaking gently. This buffer is used in between steps in immunoassays protocol. For diluting blocking solution, primary antibody or HRP-secondary antibody, please refer to WB or ELISA protocol.

## PROPERTIES

**Form** Liquid

**Storage** Room temperature. If stored at 2-8°C, some sodium chloride will be precipitated, if this occurs, bring the buffer to room temperature and mix well till all sodium chloride is dissolved.

**Note** For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.
