

## Fas Ligand antibody [H11] (Biotin)

## Cat. No. GTX35187

|              |                |
|--------------|----------------|
| Host         | Rat            |
| Clonality    | Monoclonal     |
| Isotype      | IgG2a          |
| Applications | WB, IHC-P, FCM |
| Reactivity   | Mouse          |

Package  
50 test

## Applications

## Application Note

\*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| WB                 | 2 µg/mL              |
| IHC-P              | Assay dependent      |
| FCM                | Assay dependent      |

**Note : FasL-transfected 293T cells ( $5 \times 10^5$ ) were suggested to use in FACS application.**

Not tested in other applications.

Calculated MW 31 kDa. ([Note](#))

## Properties

|               |   |
|---------------|---|
| Form          | Liquid  |
| Buffer        | PBS   |
| Preservative  | 0.02% Sodium azide  |
| Storage       | Store as concentrated solution. Centrifuge briefly prior to opening vial. Store at 4°C.                                   |
| Concentration | Batch dependent (Please refer to the vial label for the specific concentration.)  |
| Immunogen     | FasL (monoclonal H11) antibody was raised against a synthetic peptide corresponding to amino acids 196-220 of mouse FasL. |
| Purification  | Purified IgG2a  |
| Conjugation   | Biotin  |

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

## Note

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
