

TNF alpha antibody [195]

Cat. No. GTX38915

Host	Mouse
Clonality	Monoclonal
Isotype	IgG3
Applications	IHC-Fr, Immunoblotting, Neutralizing /Inhibition
Reactivity	Human

Package
100 µg

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution	Recommended dilution
--------------------	----------------------

IHC-Fr	Assay dependent
--------	-----------------

Immunoblotting	Assay dependent
----------------	-----------------

Neutralizing /Inhibition	Assay dependent
--------------------------	-----------------

Note : 50ng of antibody is required to neutralise 1 unit of TNF alpha.

Not tested in other applications.

Properties

Form	Liquid
-------------	--------

Buffer	PBS
---------------	-----

Preservative	No preservatives
---------------------	------------------

Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
----------------	--

Concentration	1.0 mg/ml (Please refer to the vial label for the specific concentration.)
----------------------	--

Immunogen	Recombinant human tumour necrosis factor alpha produced in Escherichia coli.
------------------	--

Purification	Purified IgG
---------------------	--------------

Conjugation	Unconjugated
--------------------	--------------

Note

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
