

eNOS (phospho Ser1177) antibody [BDI250]

Cat. No. GTX42866

Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Applications	WB, ELISA
Reactivity	Human, Mouse

Package

50 µg

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution	Recommended dilution
WB	2 µg/ml
ELISA	0.1 µg/ml

Not tested in other applications.

Calculated MW 133 kDa. ([Note](#))

Product Note

Endothelial NO synthase produces nitric oxide (NO) which plays a crucial role in cardiovascular homeostasis. Activation of the enzyme and NO production can be induced by phosphorylation of eNOS at Serine 1177 by activated Akt/PKB. Specifically recognizes eNOS phosphorylated at serine 1177. MW = 140 kDa. Cross-reacts with human and mouse.

Properties

Form	Liquid
Buffer	PBS, PEG, Sucrose, 50% Glycerol
Preservative	0.09% Sodium azide
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
Concentration	0.10 mg/ml (Please refer to the vial label for the specific concentration.)
Immunogen	Synthetic phosphopeptide corresponding to amino acid residues surrounding S1177.
Purification	Purified by thiophilic adsorption and size exclusion chromatography From tissue culture supernatant
Conjugation	Unconjugated
