

CELSR2 antibody [HL5390]

Cat. No. GTX645958

Host	Rabbit
Clonality	Monoclonal
Isotype	IgG
Applications	WB
Reactivity	Human

Package
100 µl, 25 µl

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution	Recommended dilution
WB	1:500-1:3000

Not tested in other applications.

Observed MW (kDa) 317 kDa.

Product Note

The immunogen sequence of this antibody is within mature form CELSR2 N-terminal fragment (NTF), so this antibody is expected to detect both full-length and N-terminal fragment CELSR2 protein. This antibody was raised against human CELSR2 Extracellular domain.

Properties

Form	Liquid
Buffer	PBS
Preservative	No preservatives
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
Concentration	1 mg/ml (Please refer to the vial label for the specific concentration.)
Immunogen	Synthetic peptide encompassing a sequence within the Extracellular domain of human CELSR2. The exact sequence is proprietary.
Purification	Affinity purified by Protein A.
Conjugation	Unconjugated

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

Note

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.

DATA IMAGES

GTX645958 WB Image

Non-transfected (–) and transfected (+) unboiled MCF-7 whole cell extracts (50 µg) were separated by 7.5% SDS-PAGE, and the membrane was blotted with CELSR2 antibody [HL5390] (GTX645958) diluted at 1:1000. The HRP-conjugated anti-rabbit IgG antibody (GTX213110-01) was used to detect the primary antibody.

GTX645958 WB Image

Various whole cell extracts (50 µg) were separated by 7.5% SDS-PAGE, and the membrane was blotted with CELSR2 antibody [HL5390] (GTX645958) diluted at 1:1000. The HRP-conjugated anti-rabbit IgG antibody (GTX213110-01) was used to detect the primary antibody. Corresponding RNA expression data are based on Human Protein Atlas program.
