

## GCLC antibody

Cat. No. GTX66705

|              |                   |
|--------------|-------------------|
| Host         | Rabbit            |
| Clonality    | Polyclonal        |
| Isotype      | IgG               |
| Applications | WB                |
| Reactivity   | Human, Mouse, Rat |

Package  
100 µl

## Applications

## Application Note

\*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| WB                 | 1:500-1:1000         |

Not tested in other applications.

Calculated MW 73 kDa. ( [Note](#) )

## Properties

|               |                                                                                                                                                                                                                            |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Form          | Liquid                                                                                                                                                                                                                     |
| Buffer        | PBS                                                                                                                                                                                                                        |
| Preservative  | 0.05% Sodium azide                                                                                                                                                                                                         |
| Storage       | Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles. |
| Concentration | 1 mg/ml (Please refer to the vial label for the specific concentration.)                                                                                                                                                   |
| Immunogen     | Synthetic peptide, corresponding to amino acids 300-350 of Human GCSc-γ.                                                                                                                                                   |
| Purification  | Purified by antigen-affinity chromatography<br>From serum                                                                                                                                                                  |
| Purity        | > 95% (by SDS-PAGE)                                                                                                                                                                                                        |
| Conjugation   | Unconjugated                                                                                                                                                                                                               |
| Note          | For In vitro laboratory use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.                                                                          |

## DATA IMAGES

### GTX66705 WB Image

WB analysis of various samples using GTX66705 GCLC antibody.

Lane1 : HepG2 whole cell lysate(40ug)

Lane2 : NIH-3T3 whole cell lysate(40ug)

Lane3 : PC12 whole cell lysate(40ug)

Lane4 : A549 whole cell lysate(40ug)

Dilution : 1:500
