

## 10X ImmunoStain wash buffer

## Cat. No. GTX73344

## Applications

IHC

References ( 1 )

Package

1 liter

## PRODUCT

## Summary

10X ImmunoStain wash buffer (pH 7.5)

## Applications

## Application Note

No pH adjustment or additives are required when using this formulation. Simply dilute the concentrated 10-fold buffer with distilled or deionized water. A total of 10 liters of working rinsing solution can be prepared with 1 liter of the concentrated reagent. This buffer is also the reagent of choice for rinsing tissue sections that are subjected to immunocytochemical staining using conventional horizontal processing techniques.

## Properties

## Storage

Store at room temperature.

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

## Note

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
