

## CD45 antibody [IBL-3/16]

## Cat. No. GTX74961

| Host         | Rat                          |
|--------------|------------------------------|
| Clonality    | Monoclonal                   |
| Isotype      | lgG1                         |
| Applications | ICC/IF, IHC-Fr, FCM, IP, IHC |
| Reactivity   | Mouse                        |

References ( 2 ) Package 250 µg

## Applications

## **Application Note**

\*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| ICC/IF             | Assay dependent      |
| IHC-Fr             | 1/50-1/100           |
| FCM                | 1/50-1/100           |
| IP                 | Assay dependent      |
| IHC                | Assay dependent      |

Note: The epitope recognised by this antibody is reported to be sensitive to formaldehyde fixation and tissue processing. We recommends the use of acetone fixation for frozen sections.

Use 10µl of the suggested working dilution to label 106 cells in 100µl.

Not tested in other applications.

**Product Note** This antibody is expected to regognize all isoforms of murine CD45.

| Properties    |  |
|---------------|--|
| Form          | Liquid   |
| Buffer        | PBS, 0.1% BSA  |
| Preservative  | 0.09% Sodium azide   |
| Storage       | Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles. |
| Concentration | 0.5 mg/ml (Please refer to the vial label for the specific concentration.)   |
| Immunogen     | Purified B cells from mouse lymph nodes.   |
| Purification  | Protein G purified From tissue culture supernatant   |
