HA tag antibody (HRP)

Cat. No. GTX77400

Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Applications	WB, ELISA
Reactivity	Species independent

Package
100 µl

Applications

Application Note

Suggested starting dilutions are as follows: WB: 1:500-1:3000, ELISA. Not yet tested in other applications. Optimal working dilutions should be determined experimentally by the end user.
Properties

Form	Liquid
Buffer	50mM PBS, 200mM NaCl, 1%BSA
Preservative	0.025% Proclin
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4ºC. For long-term storage, aliquot and store at -20ºC or below. Avoid multiple freeze-thaw cycles.
Concentration	0.2 mg/ml (Please refer to the vial label for the specific concentration.)
Immunogen	Rabbits were immunized with HA-tag conjugated to KLH. After multiple immunizations in Freund's adjuvant, serum was collected. Antibodies were immunoaffinity purified using the peptide conjugated to a solid-phase support then conjugated with HRP (Horseradish Peroxidase).
Purification	Purified by antigen-affinity chromatography.
Conjugation	Horseradish peroxidase(HRP)
Note	For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption. Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.

DATA IMAGES

GTX77400 WB Image

Non-transfected (–) and transfected (+) 293T whole cell extracts (30 μg) were separated by 12% SDS-PAGE, and the membrane was blotted with HA tag antibody (HRP) (GTX77400) diluted at 1:3000. The HRP-conjugated anti-FALSE was used to detect the primary antibody.
