

## FGF2 antibody [2H11]

Cat. No. GTX84501

|              |              |
|--------------|--------------|
| Host         | Mouse        |
| Clonality    | Monoclonal   |
| Isotype      | IgG1         |
| Applications | WB           |
| Reactivity   | Human, Mouse |

References ( 1 )

Package

100 µl

## Applications

## Application Note

\*Optimal dilutions/concentrations should be determined by the researcher.

| Suggested dilution | Recommended dilution |
|--------------------|----------------------|
| WB                 | 1:5000-1:10000       |

Not tested in other applications.

Calculated MW 31 kDa. ( [Note](#) )

## Properties

|               |                                                                                                                                                                                                                            |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Form          | Liquid                                                                                                                                                                                                                     |
| Buffer        | PBS, 1% BSA, 50% Glycerol                                                                                                                                                                                                  |
| Preservative  | 0.02% Sodium azide                                                                                                                                                                                                         |
| Storage       | Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles. |
| Concentration | 1 mg/ml (Please refer to the vial label for the specific concentration.)                                                                                                                                                   |
| Immunogen     | Human recombinant protein fragment corresponding to amino acids 10-155 of human bFGF (NP_001997) produced in E.coli.                                                                                                       |
| Purification  | Purified by affinity chromatography<br>From tissue culture supernatant                                                                                                                                                     |
| Conjugation   | Unconjugated                                                                                                                                                                                                               |
