

Annexin V-FITC Apoptosis Detection Kit

Cat. No. GTX85591

Applications ICC/IF, FCM

References (7)

Package

100 assay

PRODUCT

Annexin V Apoptosis Detection Kit is based on the observation that soon after initiating apoptosis, cells translocate the membrane phosphatidylserine (PS) from the inner face of the plasma membrane to the cell surface. Once on the cell surface, PS can be easily detected by staining with a fluorescent conjugate of Annexin V, a protein that has a high affinity for PS. The one-step staining procedure takes only 5-15 minutes. Detection can be analyzed by flow cytometry or fluorescence microscopy. The kit can differentiate apoptosis vs necrosis when performing both Annexin V-FITC and PI staining. Detection method - Flow cytometry (Ex = 488 nm; Em = 530 nm) and fluorescence microscopy
Sample type - Living cells (suspension and adherent)
Species reactivity - Mammalian
Applications - Detect early/middle stages of apoptosis; differentiate apoptosis from necrosis.

Features and Benefits

Simple one step staining procedure in 5-15 minutes

Fast and convenient

Kit can differentiate apoptosis vs necrosis when performing both Annexin V-FITC and PI staining

Summary

Kit Contents:

Annexin V-FITC - Formulated in 0.01 M PBS pH 7.4, 150 mM NaCl, 1% BSA and 0.09% sodium azide as a preservative.

1X Binding Buffer - Formulated in 0.01 M PBS pH 7.4, 150 mM NaCl. (Caution: Propidium Iodide Solution is toxic and mutagenic; Please handle with care.)

Propidium Iodide (PI) - No preservative added

Other Materials and Solutions Required:

Fluorescence Microscope or Flow Cytometer (Capable of FITC and Propidium Iodide Detection)

Microcentrifuge

Adjustable Pipettors (100-1000 µl, 10-200 µl, and 1-20 µl)

Ice Bucket and Ice

PBS Buffer

Microcentrifuge Tubes

Applications

Application Note

*Optimal dilutions/concentrations should be determined by the researcher.

Suggested dilution

Recommended dilution

ICC/IF

Assay dependent

FCM

Assay dependent

Not tested in other applications.

Properties

Storage

Stable when stored dark at 2°-8°C. Do Not Freeze.
